

# a message for parents

The WEEE Pledge programme rewards Schools, Pledging to do their part to recycle batteries and it's completely FREE!

## How can you play your part?

We'll just follow the steps below...

- 1 Collect your used batteries
- 2 Place them into WEEE Ireland battery boxes
- 3 This will teach your child the important activity of recycling
- 4 For every battery box collected is the equivalent of a €5 donation to LauraLynn, Ireland's Children's Hospice.
- 5 All schools are in with a chance to win great spot prizes!
- 6 By supporting your child's battery recycling project you are helping the environment (by diverting waste from landfill and redirecting the elements back into production) and you are helping to raise funds for LauraLynn, Ireland's Children's Hospice - as Every Battery Counts!

Lets get  
recycling all  
our batteries
